

Appendix E Stroke Index Allocation

The *Rules of Golf* state: “The Committee is responsible for publishing on the scorecard or somewhere else that is visible (for example, near the first tee) the order of holes at which handicap strokes are to be given or received.” (See *Rules of Golf*, Committee Procedures, Rule 5I (4)).

It is recommended that a *stroke index* allocation be applied over 18-holes, split into six triads with each hole ranked on its playing difficulty relative to *par*. The difficulty of each hole can be determined objectively using hole-by-hole data provided from the *Course Rating* procedure as follows:

Hole Number	1	2	3	4	5	6	7	8	9
Front 9									
Sample Table	11	15	3	7	17	1	9	13	5
Hole Number	10	11	12	13	14	15	16	17	18
Back 9									
Sample Table	12	4	16	8	2	18	6	10	14

- Apply odd *stroke index* allocations over the front nine and even *stroke index* allocations over the back nine. If, however, the back nine is significantly more difficult than the front nine, as determined by the *Course Rating*, the even *stroke index* allocations can be switched to the front nine and the odd *stroke index* allocations to the back nine.
- Spread *stroke index* allocations evenly over the 18 holes so that players receiving strokes will have the opportunity to use a high proportion of these strokes before a match result has been decided.
- Apply the lowest *stroke index* hole (1 or 2) on each nine in the middle triad. If no hole within the middle triad is ranked within the lowest 6 holes relative to *par*, then it can be moved into an adjacent hole at the end of the first triad or the beginning of the third triad on each nine.
- Apply the second lowest *stroke index* hole (3 or 4) on each nine in either the first or third triad, unless the lowest *stroke index* hole has been allocated in that same triad.
- If possible, avoid low *stroke indexes* (6 or less) on consecutive holes.
- When a player receives more than 18 strokes, the same allocation order is used with *stroke index* 1 repeating as *stroke index* 19, 37 and 55, with all additional strokes going up sequentially .

These recommended procedures support the guidance contained in the *Rules of Golf*, Committee Procedures, Rule 5I (4).
